

Department of Environment and Conservation Drycleaner Environmental Response Program 401 Church Street, 4th Floor L & C Annex Nashville, Tennessee 37243

Best Management Practices (BMPs) Certification Form

According to Rule 1200-07-.04 all facilities (initial and renewing registrations) are required to certify compliance with all Class 1 and 2 BMPs as of October 15, 2007. New regulations include; all facilities must now have secondary containment under the drycleaning machine, waste containers and any equipment that contains drycleaning solvent (i.e. evaporators, filter units, etc.) and have someone on staff who is a Certified Environmental Drycleaner (CED) or who has attended the DCERP Drycleaner Training Class or is registered to attend.

Facility Name	Facility ID No	
Address	County/City/Zip	
The following BMP categories are iden	tified for:	
Class 1 BMPs {1200-1-1704(3) (a)}: 1). Materials Storage (secondary containment/certification (effective October 15, 2007-0 and 5). Solvent Delivery Systems (Closed-law)	proper labeling). 3). Management of Relea CED Certificate or DCERP Training Semi	ses of Drycleaning Solvents. 4). CED
Class 2 BMPs {1200-1-1704(3) (b)}: 1). Release Pathways - Flooring Integrity.	Containment Systems (secondary contains	ment) and 2). Elimination of Potential
NOTE: refer to the rules for the specific BM	MP requirements (<u>www.state.tn.us/sos/rules</u>	s/1200/1200-01/1200-01-17.pdf,
In accordance with Rule 1200-1-1704, after penalties for perjury, the facility identified drycleaning facilities. I am aware there are of fine and imprisonment for intentional violential violentia	ed above is in compliance with all require significant penalties for submitting false	ired Class 1 and Class 2 BMPs for
